

### Acoustic Geophysical Services Appoints Dean Graham as HSE Manager

**[December 15, 2011 – Houston, Texas]** – Acoustic Geophysical Services, a subsidiary of Aspect Holdings, LLC, appoints Dean Graham as Manager of Health, Safety, and Environment.

Mr. Graham began his geophysical career in Health, Safety and Environment management in 2004, gaining a wide variety of experience in regions throughout North Africa, the Middle East, and offshore Asia. His expertise in HSE covers land seismic acquisition environments from desert, mountain, and forested areas with Vibroseis and dynamite acquisition crews. Prior to joining Acoustic Geophysical, Dean served as an HSE Manager for PGS/Geokinetics. Previously, Dean held positions with Veritas as HSE Advisor, later moving to PGS Onshore in a management role. Mr. Graham earned his accreditation at Nebosh in 2007.

In his new assignment at Acoustic Geophysical, Mr. Graham will focus on rigorous management procedures for HSE, superior customer service, and the highest standards of training with regional expansion of our seismic acquisition projects. Mr. Graham will assist AGS in delivering the advantages of a mature seismic acquisition team to our customers.
